

# ERP Transformation

Untangling ERP complexity

We help public sector organisations execute their transformational plan faster, better, smarter

For organisations who need to transform their back office technology to enable the rest of the organisation and delivery on saving targets, our ERP Transformation Service brings the right capabilities and methodologies to deliver the most complex of ERP projects.

## Overview

ERP Transformation by Agilisys helps public sector organisations meet their back office transformational goals faster.

Other partners implement software. We deliver transformation projects. Through years of experience, Agilisys has honed the skills and methodology to successfully deliver complex public sector specific ERP projects.

Our public sector template enables us to deliver solutions 30% faster by using our public sector specific template which solves up to 80% of requirements on day one.

**Make your transformation project happen.**

## Key features

### Managing complexity

Through years of experience we have developed a methodology that enables us to deliver ERP solutions 30% faster.

### Leading Unit4 partner

We are a leading public sector Unit4 partner, with 7 years of implementation experience.

### The Agilisys public sector template
